Greyrock Philosophy

The Greyrock range is based on rich, soft and approachable hand-crafted wines. They are made for early enjoyment, but may be cellared with confidence.

Vineyards

Pinot Gris is sourced from Greyrock's Hawke's Bay vineyards with a range of soil types including gravels, silt and clay loam. The different characteristics of these sites provide depth and complexity of flavour in the wines.

Winemaking Notes

The fruit is gently pressed off to cool ferment in stainless steel tanks. Post ferment, it is left for a short period on gross lees to develop texture and mouth-feel. It is then blended and bottled while young and fresh.

Tasting Notes

The Greyrock Sparkling Pinot Gris has aromatic pear and citrus flavours with a fresh, fruity finish. Drink young and well chilled.

Food Match

Excellent as an aperitif or with charcuterie.
